

## To Whom It May Concern:

Popov Aleksander Aleksandrovich has been working for Happy Studies for the past seven years as an ESL teacher. He has been teaching corporate groups, children, teenagers, adult groups and individual clients of different levels (from Starter to Advanced). As a result, he has built an outstanding reputation as an excellent educator. One of Aleksander's greatest assets is his unique approach in combining traditional and modern teaching methods with cutting-edge technologies. In class he has been extensively using software applications and reference materials developed by himself, which engaged students really well into the activities, and, as a result, encouraged them to study more productively and effectively. As an academical director I have observed dozens of Aleksander's lessons both with groups and individual students and have always marked positive emotional background and total involvement of students in the learning process.

Aleksander has also fulfilled some projects on translation within our company on various directions, all of them in due time and in a quality manner.

I have no doubt that in view of his qualifications and experience, Popov Aleksander will be a productive contributor to the work of any institution as an experienced, punctual and resourceful person.
